

To stand out in the Kerala market, your company should act as a "**Local Guardian**" rather than just a service provider. The goal is to provide a 360-degree ecosystem where the NRI owner never has to worry about the physical or legal status of their property.

Here is a comprehensive list of services you can offer as a property management company and consultant:

1. Asset Monitoring & Maintenance

This is the "Peace of Mind" package. Since Kerala's climate is harsh (heavy monsoons), physical care is the top priority.

- **Periodic Inspections:** Monthly or bi-monthly visits with high-definition photo/video reports sent via WhatsApp or a client portal.
- **Monsoon Proofing:** Pre-monsoon roof cleaning, waterproofing checks, and post-monsoon dampness treatment.
- **Garden & Plot Upkeep:** Periodic grass cutting for vacant plots to prevent encroachment and snake hazards.
- **Utility Management:** Paying electricity bills, water bills, and local property taxes (Land & Building tax) on time.

2. Income Generation (Monetization)

Many NRIs have "Ghost Houses" that are locked up. You can help them earn from these assets.

- **Vacation Rental/Airbnb Management:** Transforming ancestral homes or villas into homestays. You handle the listing, guest vetting, check-ins, and professional cleaning.
- **Long-term Tenancy:** Finding "Verified Tenants" (corporate or family), drafting legally sound lease agreements, and managing monthly rent collection.
- **Interior & Furnishing:** Consulting on minor renovations or staging that can increase the rental or sale value of the property.

3. Real Estate Consultancy & Sales

When an NRI decides to sell or buy, they need an unbiased expert on the ground.

- **Transaction Facilitation:** Acting as the "Sales Liaison" to show properties to prospective buyers so the owner doesn't have to fly down.
- **Property Valuation:** Providing an honest market rate analysis based on local trends rather than just broker estimates.
- **Title Verification:** Working with lawyers to ensure the property has a "Clear Title" (checking EC, old deeds, and mutation records).
- **Repatriation Assistance:** Guiding them on how to legally move sale proceeds back to their country of residence (FEMA & 15CA/CB compliance).

4. Legal & Documentation Support

This is often the biggest pain point for overseas owners.

- **Power of Attorney (PoA) Services:** Assisting in drafting and registering PoAs so a trusted person (or your company) can sign documents on their behalf.
- **Mutation & Survey:** Handling the "Pokkuvaravu" (Mutation) process and land survey coordination with the Village Office.
- **Tax Compliance:** Managing TDS (Tax Deducted at Source) issues for NRI sellers and filing income tax returns for rental income in India.

5. Arrival-to-Departure Concierge

Offer a "Homecoming" experience for when the family visits Kerala.

- **Pre-Arrival Deep Clean:** Making the house "live-in ready" (dusting, linen change, fridge stocking).
- **Logistics Support:** Arranging airport pickups, car rentals with drivers, or even organizing local "Pilgrimage/Temple Tours."
- **Health Concierge:** If they have elderly parents in Kerala, you can offer to coordinate medical appointments or home nursing visits.

Service Tiering Example

You can package these into different subscription models to ensure recurring revenue:

Basic (Guardian)	Premium (Income)	Elite (Concierge)
Monthly Inspections	Everything in Basic	Everything in Premium
Bill Payments	Tenant Sourcing	Airport Pickup/Drop
Tax Filing Assistance	Rent Collection	Grocery/Home Setup
Basic Cleaning	Maintenance Coordination	24/7 Emergency Support

The "X-Factor": Offer a **"Dark Site Management"** service for vacant plots. This includes installing "No Trespassing" boards with your company’s contact info and conducting regular boundary checks to prevent illegal occupation—a common fear among NRIs.

Basic (Guardian)	Premium (Income)	Elite (Concierge)
Monthly Inspections	Everything in Basic	Everything in Premium
Bill Payments	Tenant Sourcing	Airport Pickup/Drop
Tax Filing Assistance	Rent Collection	Grocery/Home Setup
Basic Cleaning	Maintenance Coordination	24/7 Emergency Support
